WORK EXPERIENCE

Front-end Developer

TCS Tata Consultancy Services Limited, India

📅 Feb 2021 – Dec 2023

- Implemented dynamic user interfaces for a US-based healthcare client project using Typescript on Angular framework ,focusing on delivering intuitive and responsive frond-end solutions.
- Worked collaboratively with back-end developers, architects and story owners with multiple teams to provide smooth and on-time delivery of the product using Agile methodologies.
- Enhanced features to improve the client-user experience utilizing Typescript, HTML, CSS and integrating Restful APIs.
- Handled product requirements and clarified it with the stakeholders ensuring cross-departmental collaboration by ensuring code quality.
- Actively conducted unit tests and E2E tests for my developed application.
- I also got the opportunity to train my colleagues around 12 of them about the workflow of our project and clean-coding techniques, it helped to be more self-organized and self-responsible.
